How Much Is... (Ten more or Ten Less)?

Materials:

- Game Board
- Two-Digit Number Cards
- Answer Key
- Ten More and Ten Less Spinner

Directions:

- Each player places a marker on start.
- Shuffle the deck of Two-Digit Number Cards and place them face down in a pile.
- Pick a digit card. The player with the greater number is Player One.
- Player One picks a card and reads the number.
- Player One spins the spinner and answers "How much is...?"

- Player Two uses the answer key to make sure Player One is correct.
- If correct, Player One moves the given number of spaces on the game board.
- If incorrect, Player Two tells Player One the correct answer. Player One does not move forward.
- It is now Player Two's turn.
- The first player to reach the finish space wins.

Ideas for Differentiation:

- Extra Support: Students can use manipulatives and a place value mat (tens and ones) to show the number. Students can add a ten or subtract a ten to find the solution.
